

AGENT 006 // STACY QUICK START

MUSTANG MAXX

MEET MAXX

TALK NORMALLY. MAXX HANDLES THE MACHINES.

START HERE

If you can text, you can use MAXX.

- 1 Tell MAXX the result you want.
- 2 Let him figure out the work underneath.
- 3 Open proof when you want details.

TRY THIS

Try: "Max, tell me what I should handle first today."

Specialist teammates that keep work moving.

- 1 Chief Pup coordinates.
- 2 Superdoer Pup prepares useful work.
- 3 Business-in-a-Box Pup runs one supplied business idea.
- 4 Use a normal MAXX mission for one-off work.

TRY THIS

Try: "Spin up a Pup for weekly social content. Nothing publishes without me."

More brainpower. Same rules.

- 1 Use it for strategy and hard decisions.
- 2 Ask for 3 options, 2 tradeoffs, 1 recommendation.
- 3 Approvals and safety stay the same.

TRY THIS

Try: "Activate MAXX Mode and challenge my assumptions."

Stop re-explaining your business.

1 Upload useful AI exports, notes, documents, or ZIPs.

2 MAXX organizes them privately.

3 Later he loads only the relevant pieces.

TRY THIS

Try: "Check my second brain and remind me what we decided."

Think outcomes, not software.

- 1 Recover missed follow-ups and leads.
- 2 Build social campaigns and repurpose video.
- 3 Audit, repair, deploy, and verify websites.
- 4 Research decisions and run repeatable routines.

TRY THIS

Try: "Give me one win today that saves time or recovers money."

THE RULE

You stay in control.

- 1 GO: research, draft, organize, test.
- 2 ASK: publish, send, spend, delete, change important settings.
- 3 DONE should mean something actually happened.

TRY THIS

Try: "Prepare everything. If it goes public or costs money, ask me first."
